

① *Things to Prepare:*

② *There are 2 methods for attaching:*

- **Air Adhesion (Dry Method):** for use with lengths less than 12inch. ▶▶
- **Water Adhesion (Wet Method):** for use with larger sizes. ▶▶

■ **Air Adhesion (Dry Method): When affixing sheets less than 12inch**

○ Things to Prepare : Squeegee, Cutter, Ruler, Masking Tape, Dust Cloth

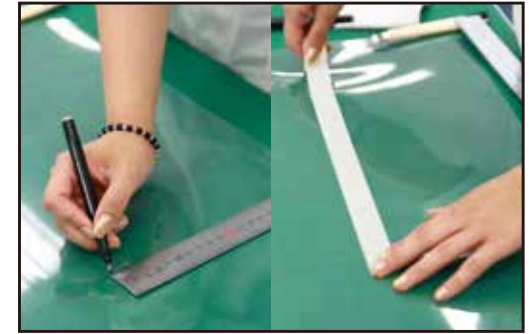

○ Method :

① Clean the surface thoroughly with the dust cloth.

② Fold back the mounting sheet by approximately 1/2 inch, then cut and remove the folded part.

③ Use the ruler and masking tape to mark out the area where the vinyl letters are going to be placed.

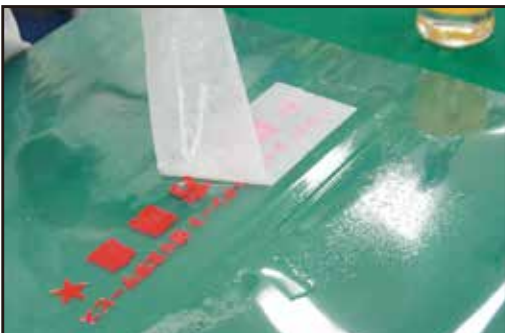

④ Align the sheet to the markings. Peel back the mounting sheet and affix onto surface with the squeegee.

⑤ Continue peeling back the mounting sheet while using the squeegee to firmly affix the adhesive to the surface.

⑥ Make sure to rub firmly to remove air bubbles.

⑦ Peel away the tack sheet.

⑧ You're done!

■ **Water Adhesion (Wet Method): When affixing large sheets**

○ Things to Prepare : Squeegee, Detergent & Spray bottle, Dust Cloth

○ Method:

① Clean the surface thoroughly with the dust cloth.

② Spray the surface liberally with the diluted detergent.

③ Peel off the mounting sheet and use the spray bottle to wet the adhesive side.

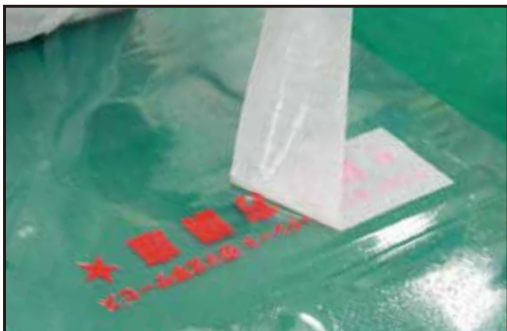

④ Adjust the sheet to the desired position.

⑤ Start from the middle and work towards the edges, applying pressure with the squeegee to remove the water.

⑥ Rub the surface with the squeegee until all the water is completely removed from under the vinyl letters.

⑦ Peel off the tack sheet.

⑧ Use the dust cloth to gently wipe the surface clean of dried detergent.
